Store Hours: 9 A. M. to 5 P. M. Closed Saturdays

Charge Purchases Will Appear on Bills Rendered September 1st

To-morrow, Monday, July 24th, Will Inaugurate the

Midsummer Sale of

FURNITURE

An Event Offering Important Concessions from Regular Prices On Entirely New Furniture of the Best Construction and Finish

During the past six months the manufacturing cost of Furniture has steadily increased. Lord & Taylor, nevertheless, have held to their low prices, existent before the rise in Furniture cost began.

When it is realized that Reductions of from 10 to 50 Per Cent from these original moderate prices will prevail at the Midsummer Sale, the importance of the event becomes apparent.

The sale of this superb collection of New Furniture offers opportunities for savings so exceptional and a range of selections so broad that it is well worth while to make your purchases for Autumn re-furnishings now. Furniture purchased now will be held for future delivery if desired.

The Midsummer Sale of Furniture will continue throughout the month of August, but early selections are advised.

What These Things Signify

while paying as much or more, get something less

efficient. How will you feel when the two cars meet?

With this patented motor—certified stock motor

It has made faster speed. It ha done better hill-

climbing. It has shown quicker pick-up. It has

gone 1819 miles in 24 hours, reaking the best

It has beaten race cars by he dozen-cars of a

very costly type. It has shwn much more power

than this size motor ever bfore developed. It has

Suppose your neighbe gets this car. And you,

—it has done what no other stock or ever did.

former stock car record by 52 ercent.

proved matchless endurage.

You do not sare for reckless speed. Such power is rarely needed. But the Super-Six has the capacity. You know it to be the master of the

road. It will to what you want without taxing half its ability. And that means economy.

It will cover more ground than lesser cars, without going any faster. This because of its quick get-away when you slow down or stop.

Its greatest supremacy—that of endurance - means years of extra

Some Hudson Records

All made under American Automobile Association supervision by a certified stock car or stock chassis, and excelling all former stock cars in these tests.

100 miles in 80 min., 21.4 sec., averaging 74.67 miles per hour for a 7-passenger touring car with driver and passenger.

75.69 miles in one hour with driver and passenger in a 7-passenger touring car.

Standing start to 50 miles an hour in 16.2 sec.

One mile at the rate of 102.53 miles per hour. 1819 miles in 24 hours at average speed of 75.8 miles per hour.

The Hudson Super-Six has proved it f supreme. service. How would you feel to have a like-class car excel yours in these respects?

Means 80% More Efficiency

The Super-Six motor—a Hudson invention—adds 80% to motor efficiency. That is, from a small, light motor it gets 76 horsepower. The same size of motor heretofore yielded us 42 h. p.

This result comes through ending vibration, the cause of motor friction. It gives such smoothness as you never knew before. And it means a longlived motor.

It comes in a car, evolved under Howard E. Coffin, which has long stood for the acme in fine engineering. And it comes in the handsomest, best-equipped model that Hudson has ever designed.

If your neighbor gets it, and you don't, it may mean to you years of regret. In looks and performance, in prestige and endurance, he will have the

advantage of you. Your Hudson dealer can prove these things beyond any possible question. And you should know them before you buy any high-grade car.

Any Super-Six owner—there are now more than 10,000—can tell you what it means to own one.
